

# Arrow Lock Tags

Arrow Lock Tags are one of our most popular items. They are made of a thin, flexible plastic. They have a “locking” plastic arrow that fits through the small hole in the upper left hand corner.

The tags can be attached to equipment and can be used both indoors and outdoors. They are waterproof, weatherproof and they do not tear.

The tags come in boxes of 200 each with 1 permanent marker in each box. Contact the Association office for current pricing.

The #149 tag comes in yellow, light blue, light green or red.

To order, please e-mail the association office at [mail@equipmentdealers.org](mailto:mail@equipmentdealers.org) or call 1-800-727-1530.
